Refined. Functional. Essential.

A premium outdoor space deserves a flawless finish. Bulky traditional plastic and metal covers disrupt the beauty of a well-designed landscape, creating unnecessary eyesores. HIDE is Australia's leading manufacturer of sleek, seamless inlay covers, which allow you to integrate your inlay material into the cover for a fully cohesive finish.

Designed for luxury and durability, HIDE Exterior Covers enhance the aesthetic whilst maintaining functionality. A must-have for high-end landscapes, HIDE transforms outdoor spaces into sophisticated, thoughtful, and seamless environments.
